Zion'. Savings Bank's Bid Accepted by the Court.

MR. J. P. BACHE IS MADE CLERK.

Two New United States Commissioners-Mar shal Dyer's Accounts-The Church Muttons In Court Once More.

On the opening of the supreme court yes On the opening of the supreme court, yes-terday morning, the first business consid-ered was the disposition of the proposition made by Zion's Savings bank. Jadgo Zane said: "The proposition of Zion's Savings bank to take \$75,000 of the money now in the mands of the receiver, on deposit at \(\frac{1}{4} \) of \(\frac{1}{4} \) per cent per month for four months, is accepted, upon terms of the vertificate of deposit by the bank given to the re-ceiver being signed by the president and directors of the bank. An order will be drawn giving more specific directions in Mr. Williams-! understand that this

Mr. Williams—I understand that this certificate is to be signed on behalf of the efficers of the bank, in their official capacity.

Judge Zane—It is to be endorsed personally as well as officially.

In regard to the lease of the church sheep, Judge Zane—said that the court would make an order that bids be asked for a whole or part of the sheep, which would be leased to the highest responsible bidder, by September 1188.

Later on the following order was entered:

Later on the following order was entered:
The receiver in this case having, on the 6th of
June, 1886, thed has report heredit, with respect
to certain money in his hands as such receiver,
and the court having considered said report,
does hereby order that the said receiver deposit
with Zhow's Savings Hank and Trust Company,
for four numbs, at the rate of one quarter of a
per coult per month interest. \$75,000 of said
money, said treasurer to take the veitten certs
theats of deposit thereof, duty executed by said
bank also signed by the president and casafer
of said bank and its directors, binding the said
bank and cach silver thereof, and the said bank and assister
and caches and a said received to the following said said continues amorting to the term
and calculate and certificate amorting to the terms.

int collect and certificate according to its terms.

It will be seen from a perusal that the order requires each and all of the directors to be bound as survities to return the money at the time stated. As Joseph F. Smith, one of the directors, is out of the territory, it was thought this fact might have some influence out the court. Mr. Williams, on ischalf of the receiver, however, uppeared and stated that all the directors and other officials save Mr. Smith could be reached, but it was deabtful if his signature could be obtained.

The Judge-Well, then let the order be unged so us to include all the officials TWO NEW COMMISSIONERS.

D. C. McLaughlin, of Park city, and John W. Greenman, of talk city, were ap-pointed cummissioners of the supreme-court.

OF BUSINESS BACHTE.

Judge Zase amounced the receipt of the resignation of W. J. Clarke, as clark of the court, and said that a majority of the beach had united on the appointment of Joseph P. Bache as its successor, "So far as I amountement," he said, "I should have appointed by Burd." ACCOUNTS APPROVED.

The accounts of W. J. Clarko were approved by the court.
District Atlantary Poters submitted the accounts of Marshal Director expenses for April, May and June, is the district courts, asking 85,804.71 in United States cases and \$2,098.14 in territorial cases; total,

and \$1,000.14 in territorial enses; total, \$1,150.85.

Andre Zane thought that overcharses and servirs hight overch in this way of approving accounts without an investigation, and he did not propose to do any more of it. If the approval of the court meant anything it should be based on an inderstanding of the overchiness of the accounts.

There was some conversation between the judges, when the chief justice an anounced that in the future the accounts of the marshal must be submitted to the court of the district in which they have occurred.

The case of M. B. Buford vs. S. J. Loner on was arrived and submitted. THOSE MUTTONS ONCE MORE,

The following order was made in the atter of the sheep now held by the re-

matter of the success of the content of the content of the case it is ordered that the receiver advertise in three daily papers published in this sity and the Ogden Standard and Commercial rubilished in Ogden, and it cote paper published at Provo. The Rathing at Garfield-The Blevelists at Lake Park-Other Notes.

There was the usual Sunday rush to the pathing resorts. Garfield was largely bathing resorts. patronized by those whose only object in visiting the inland sea is to escape the heat of the city, indulge in an invisorat-ing bath, and spend a few bours quietly. The morning hours saw a large number of families at the resort, and in the afternoon and evening, the water was fairly dotted with bathers. A camera obscura is the latest attraction at the beach.

There was a fair attendance at Lake Park, and these were considerably disap-pointed over the non-appearance of the bievelists, who had been advertised to ap-

bicyclists, who had been advertised to appear at 4:10 p. m. In lieu of these, a show was given on the pavilion, some "artists" having been imported from Ogden. It was very tart for the mest part.

The bicyclists, however, arrived at about 7:30, having been delayed in lows nine hours, through a smash-up on the Burlington route. Notwithstanding their fatigue, they were soon on the track and gave a very satisfactory exhibition. They appear daily at the park during the week, and will have an extra attraction on Thursday.

The Employees' Pass Question. On the employees' pass question, Comof the twenty-second section, that "Noth-ing in this act shall be construed to prevent railroads from giving free carriage to their own officers and employees, or to prevent the principal officers of any railroad company from exchanging passes or tickets with other railroad companies for their officers and employees." Commissioner Morrison continues: "As you will observe this provision of the law does not pervent railroads from giving free carriage to, or from exchanging passes or tickets for any or all of their officers and employees. Nor can it be that the companies have any difficulty in knowing who are these officers or employees. The free carriage and exchanging passes and tickets is left by the law with the companies to grant or not, and the law neither prevents nor enjoint on them such carriage or exchange." own officers and employees, or to prevent

The Railroad Mileage of the World. The latest estimate of the railroad mile ge of the world is given in a German periodical. The concinsion is that there are 334,400 miles of railroad in existence, in which \$35,500,000,000 is invested. The capwhich \$25,500,000,000 is invested. The capital in Europe is \$113,000 per mile, and in other countries \$50,900. Nearly one-fourth of the mileage of the roads of the world has been constructed during the last four years. This country leads all others in the amount of mileage, which is placed at 150,700, a low estimate. Of the European countries Germany leads with 24,900 miles, and France, England, Austria and Russia come next in order named, the latter reporting 18,000 miles. In British India there are 18,200 miles of road, in Cape Colony, 1,700 miles; in Brazil, 5,000; in the Argentine Repulle, 4,000, and in all the Australian provinces, 9,500 miles. PROVO POINTS.

Hon, S. R. Thurman says that previous to the convention he had told several parties that he did not want the nomination and he had instructed one of the delegates to withdraw his mane if it was presented. On Saturday, however, a number of delegates from the northern part of the county visited him, and at their carnest request he had consented for them to present his name. Since the convention he has not said anything about accepting, or stated definitely his intentions, either to the Tribine or any one else. The fact that the vote for him was not made unanimous, has caused him to seriously consider the matter. Mr. Thurman appears yet undecided, but from his remarks I conclude if the people want him, he will accept.

Mother Eve.

According to Milton, the first thing Eve did after leaving Adam's side, was to survey her charms in a slivery pool. No doubt she was a splendid creature, but beauty is not the heritage of all her daugh ters, and many of them resort to "Glem's Sulphur Seap" to obtain the dazzling complexion which Eve received from nature. The great merit of this unexcelled cosmelle is that it leaves no traces of artificiality, Heware of counterfeits. Seld by druggists. But the most brilliant complexion with gray hair would be an anomaly, and therefore this blemish should be removed by the use of "Hill's Instantaneous Hair Dye," which is unsurpassed alike in cheapness and the perfection of color it bestows.

Bishop Booth has been promoted to preside over the Northwestern states mission. The Utah Central railroad will donate the net gain of excursions from this county to Garfield for the benefit of our stake organ fund. The first encursion is amounced for Wednesday.

There was a social gathering in the Fourth Ward meeting boose on Saturday night in honor of Bishop Booth, who expects to depart on his mission this week.

An error occurred in our report of the convention hast Saferday which it is used in the present of any of the seven term in the present of the printers, who already have mough to answer for After the regular roll call, there were twe proxy delegates admitted, which made the number twenty fine instead of 44. When the vote was taken there were twenty for Thurman ind seven for Booth. One of the seven then moved to make the vote manimous for Thurman, which resulted in twenty-five for and three agrainst the motion. One of the three then stated that he voted for Booth. They since learned than Bishop Booth had nothing to do in connection with his name being presented as a cindidate, and he feels more pleused than otherwise with the result. He don't wait any one to bolt the regular telect on his account.

Schmierer, who resided extensive than was at dirst supposed. The origin of the fire is still shrouded in mystery. John G. Schmlerer, who resided your Hathaway's drug store, says he went home shortly before 12 o'clock and noticed a very strong odor of gasoline in the rear of the store, and some straw, etc., piled up in one corner of the shed, and the thought struck him that it was a good time for a dre. He went up stairs and laid down on a odil'b by the window. The next thing he remembers was a cracking sound somewhat resembling a rushing wind. He went to the door when a blast of hot air and smolre struck him and he fell to his knees almost suffocated. Picking up one of his wife and other the e-hiddren, and told them to run for their lives. Nightwatchman Thomas met them and took the children and led the way down onto the street, Mrs. Schmlerer following. They were quartered at the St. Elian hotel. Mr. Schmlerer rushed held and grabbed a trunk containing his valuable papers and pitched it out of the window and after the arrival of the firemen went back and secured his gold watch and pants containing \$73 in cash and an album. This is all he saved from the flame. The fire department was on the spec in a remarkably short time after the alarm was sounded and did some most excellent work. They deserve much credit for their efficient services which prevented the flames from sweeping the block.
